Sensor Probe Protective Sleeve for Type-SR sensors

Description:

This is a protective sleeve for the Rheonics SRV and SRD sensor probes. The protective sleeve uses 4 M3x3 set screws to attach the sleeve to the probe's 14 mm diameter section. The purpose of the sleeve is to protect the sensing element from potential collisions with external elements during installation or manual cleaning. This sleeve is ideal for applications where viscosity is low or where fluid transfer is high, ensuring there is a low risk of plugging around the sensing element.

Specifications:

Sensor Connection	Set screw M3x3 mm (x4)
Article Number	27343A
Material	316L

Related Products:

Sensor	SR-X2, -X3, -X5, -X6, -X7, -X8
Bolts	Set screw M3x3 mm
