## Protective Accessories

### Sensor Probe Protective Sleeve for Type-SR

#### Description:

This protective sleeve is designed for the SRV and SRD sensor probes in long insertion variants -X5 and -X8. The protective sleeve uses 4 M3x3 mm set screws to attach the sleeve to the probe's 30 mm diameter section. The purpose of the sleeve is to protect the sensing element from potential collisions with external elements during installation or manual cleaning. It is ideal for applications where viscosity is low or where fluid transfer is high, ensuring there is a low risk of plugging around the sensing element.

#### Specifications:

Sensor Connection	Set screw M3x3 mm (x4)
Article Number	27357A
Material	316L

#### Related Products:

Sensor	SR-X5, -X8
Bolts	Set screw M3x3 mm
