

# Continuous Battery Electrode Slurry Monitoring & Control

with Rheonics inline sensors

## Sensor Implementation

Scan to know more about battery

## Rheonics solutions

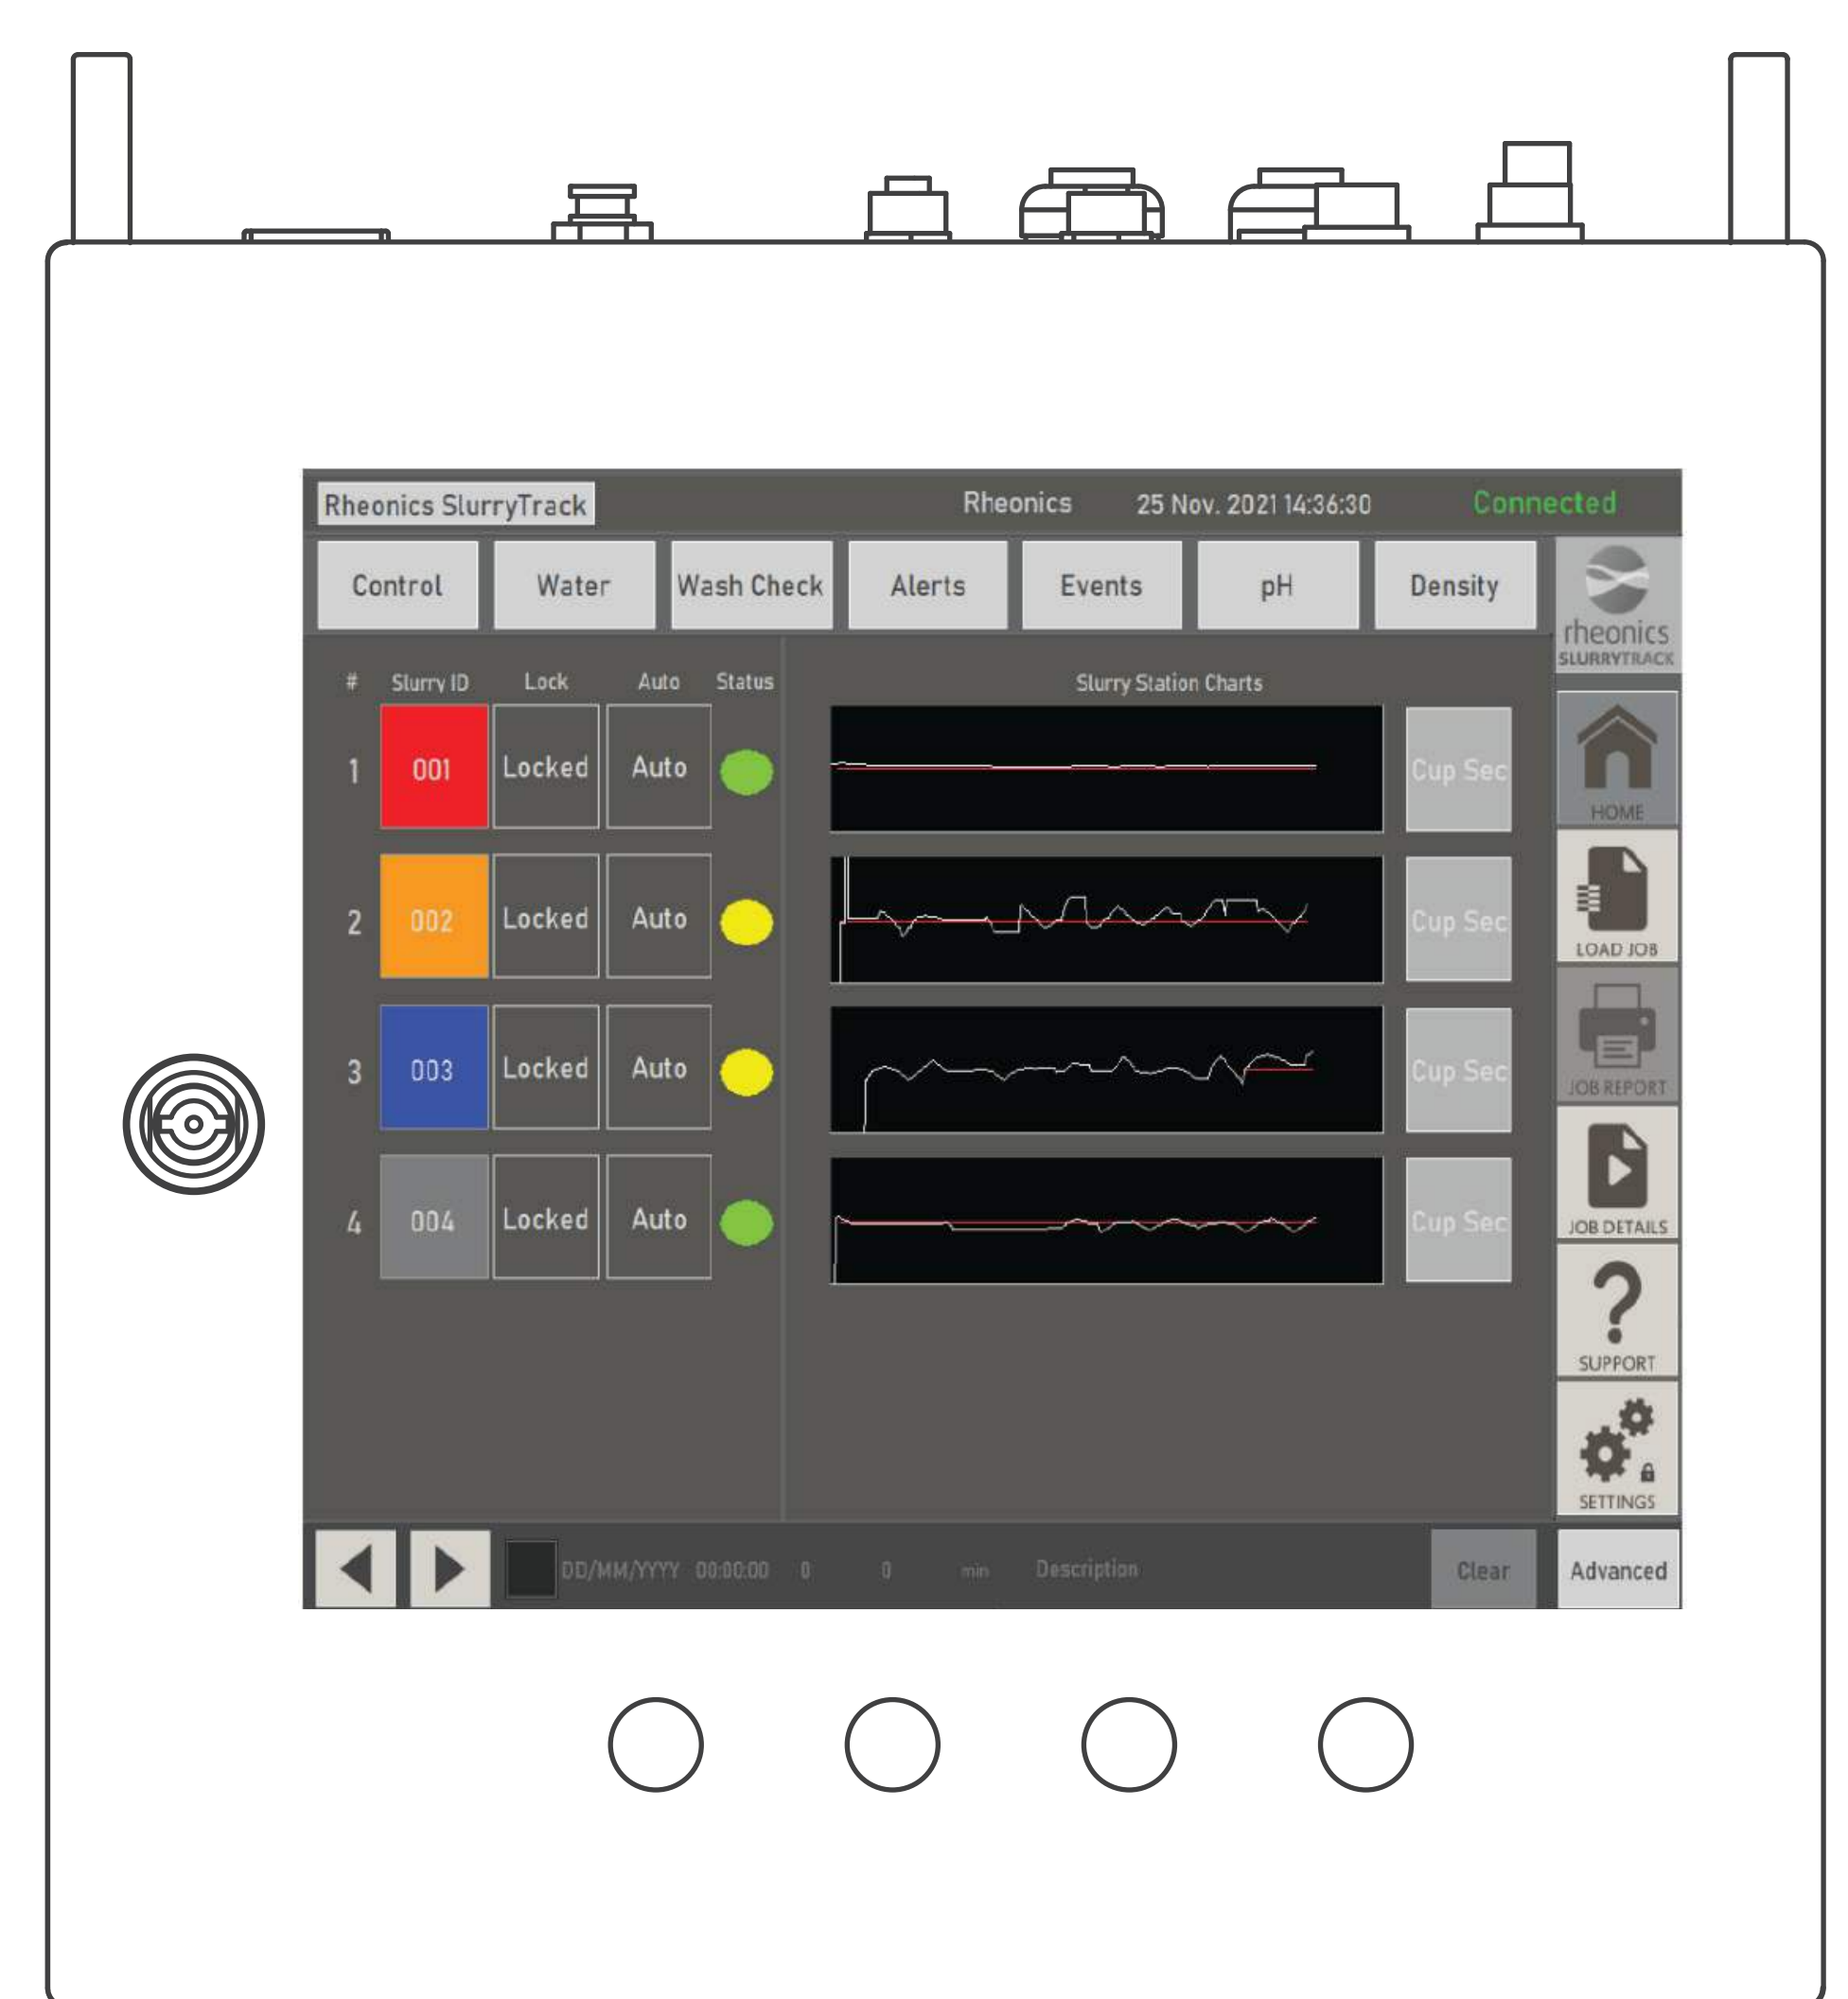

### Rheonics SRD

- Density
- Viscosity
- Temperature
- Solid loading

### Rheonics SlurryTrack

- Slurry weight
- Density
- Solids content
- Viscosity
- Coating thickness control

Rheonics Predictive Tracking Controller ensures consistent slurry quality

## What can you achieve?

-  Real-time inline accurate measurements
-  Ensure battery performance and safety operation
-  Track consistent electrode slurry and electrolyte composition
-  Minimize waste and maintain quality

Swiss precision in every measurement
