

SLURRYSENSE

Self-cleaning density and

viscosity sensor for slurry

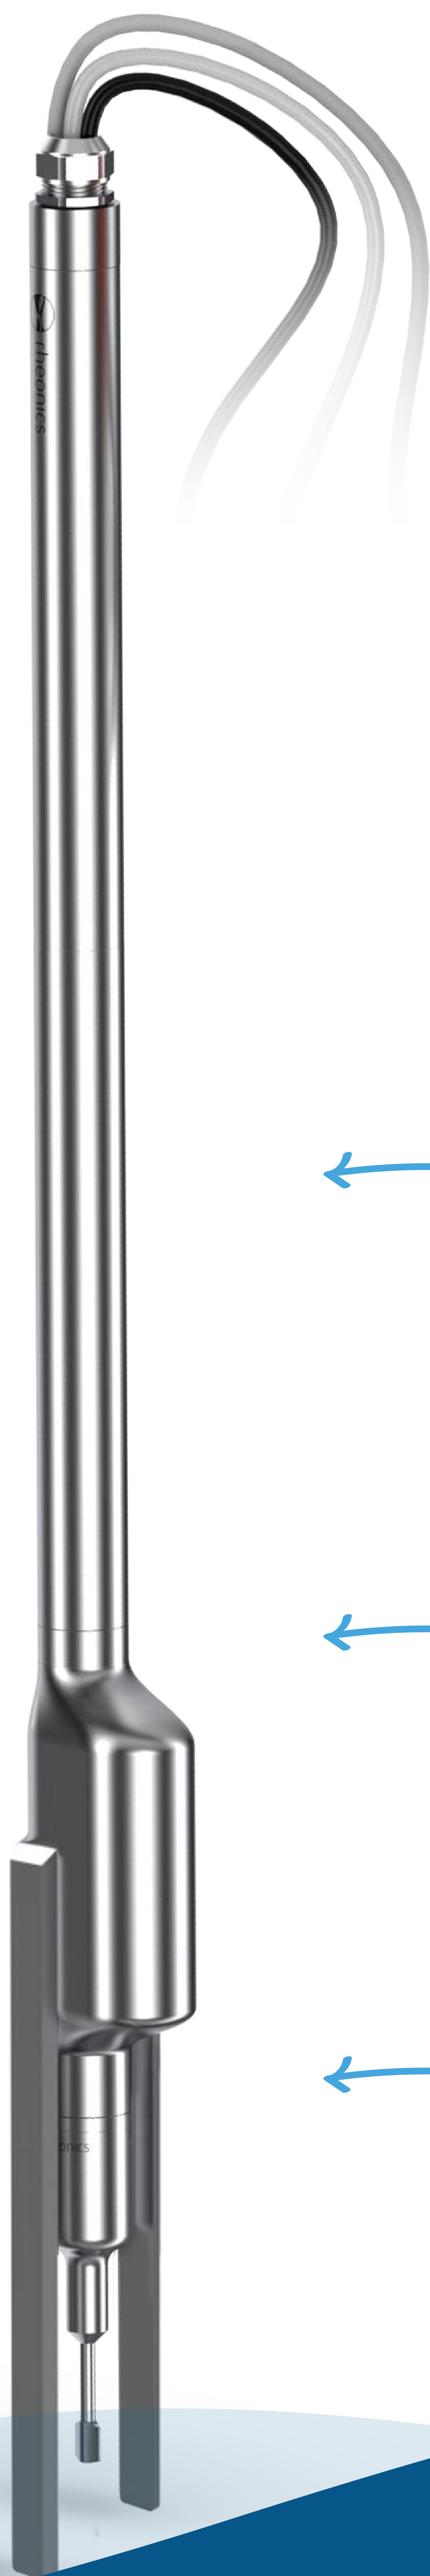

Eliminates need for removal and cleaning

Continuous monitoring without concern for deposits

Major step towards Industry 4.0 compliance

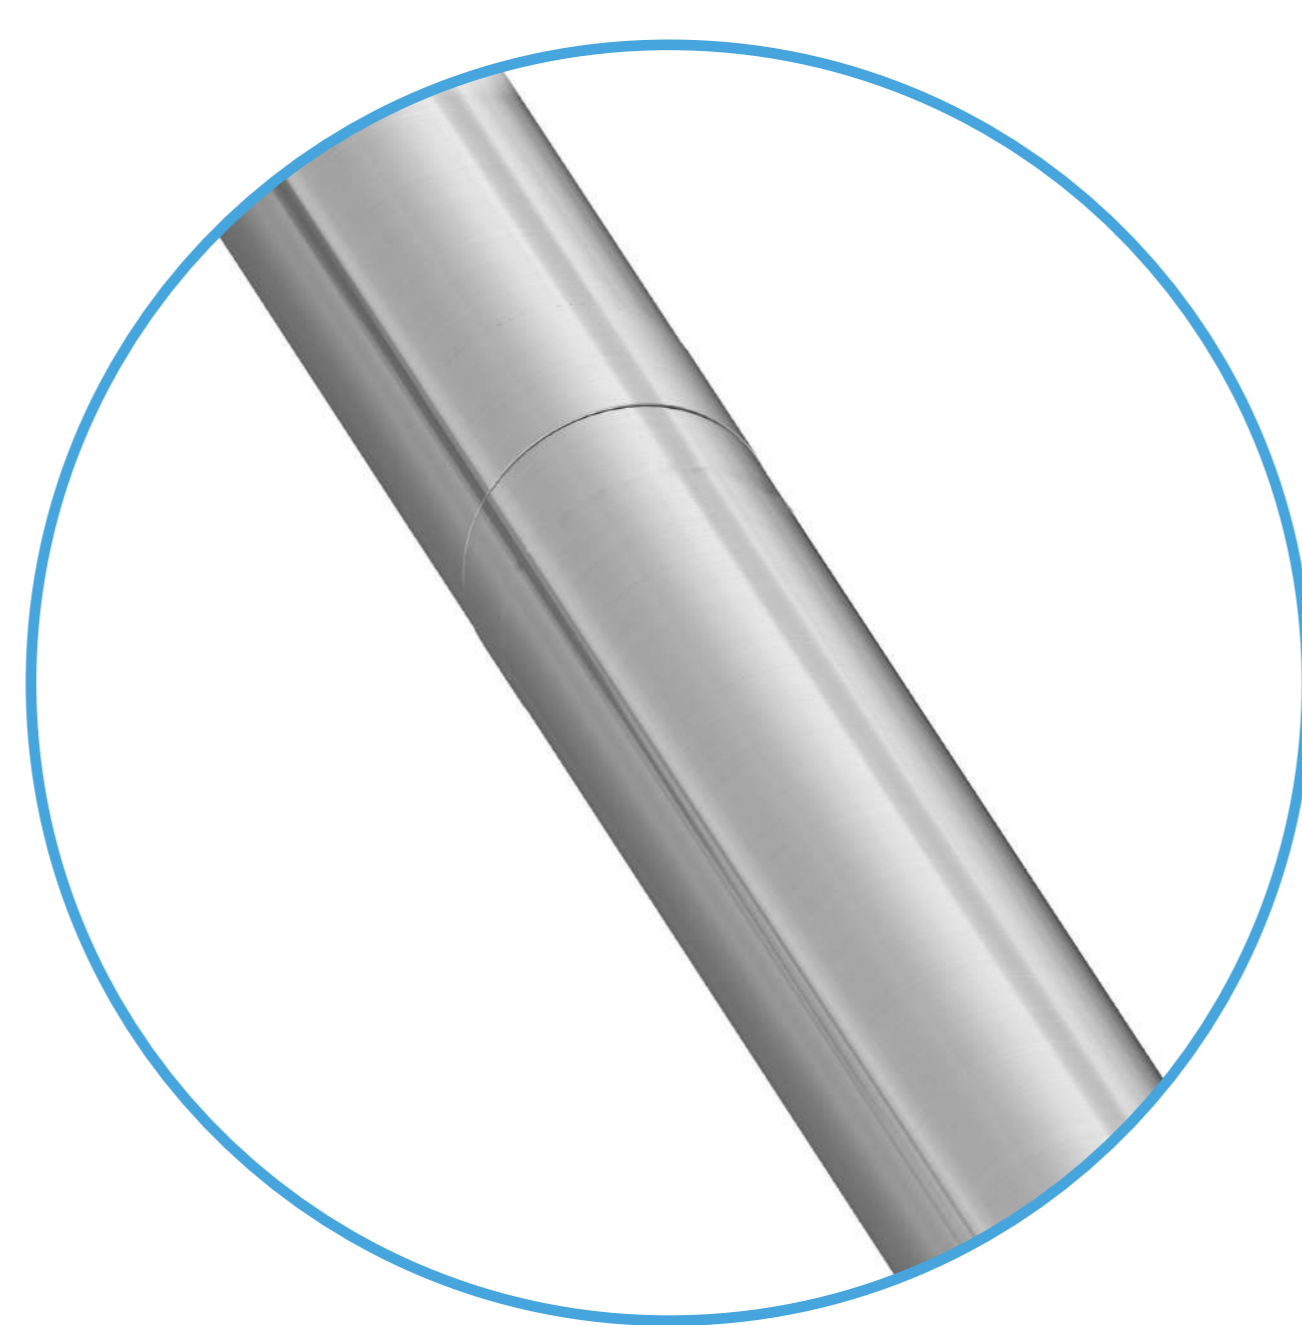

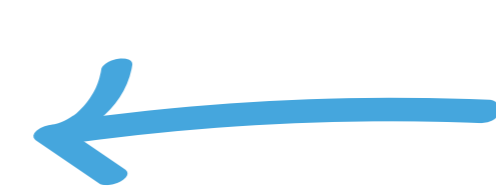

SlurrySense Mounting

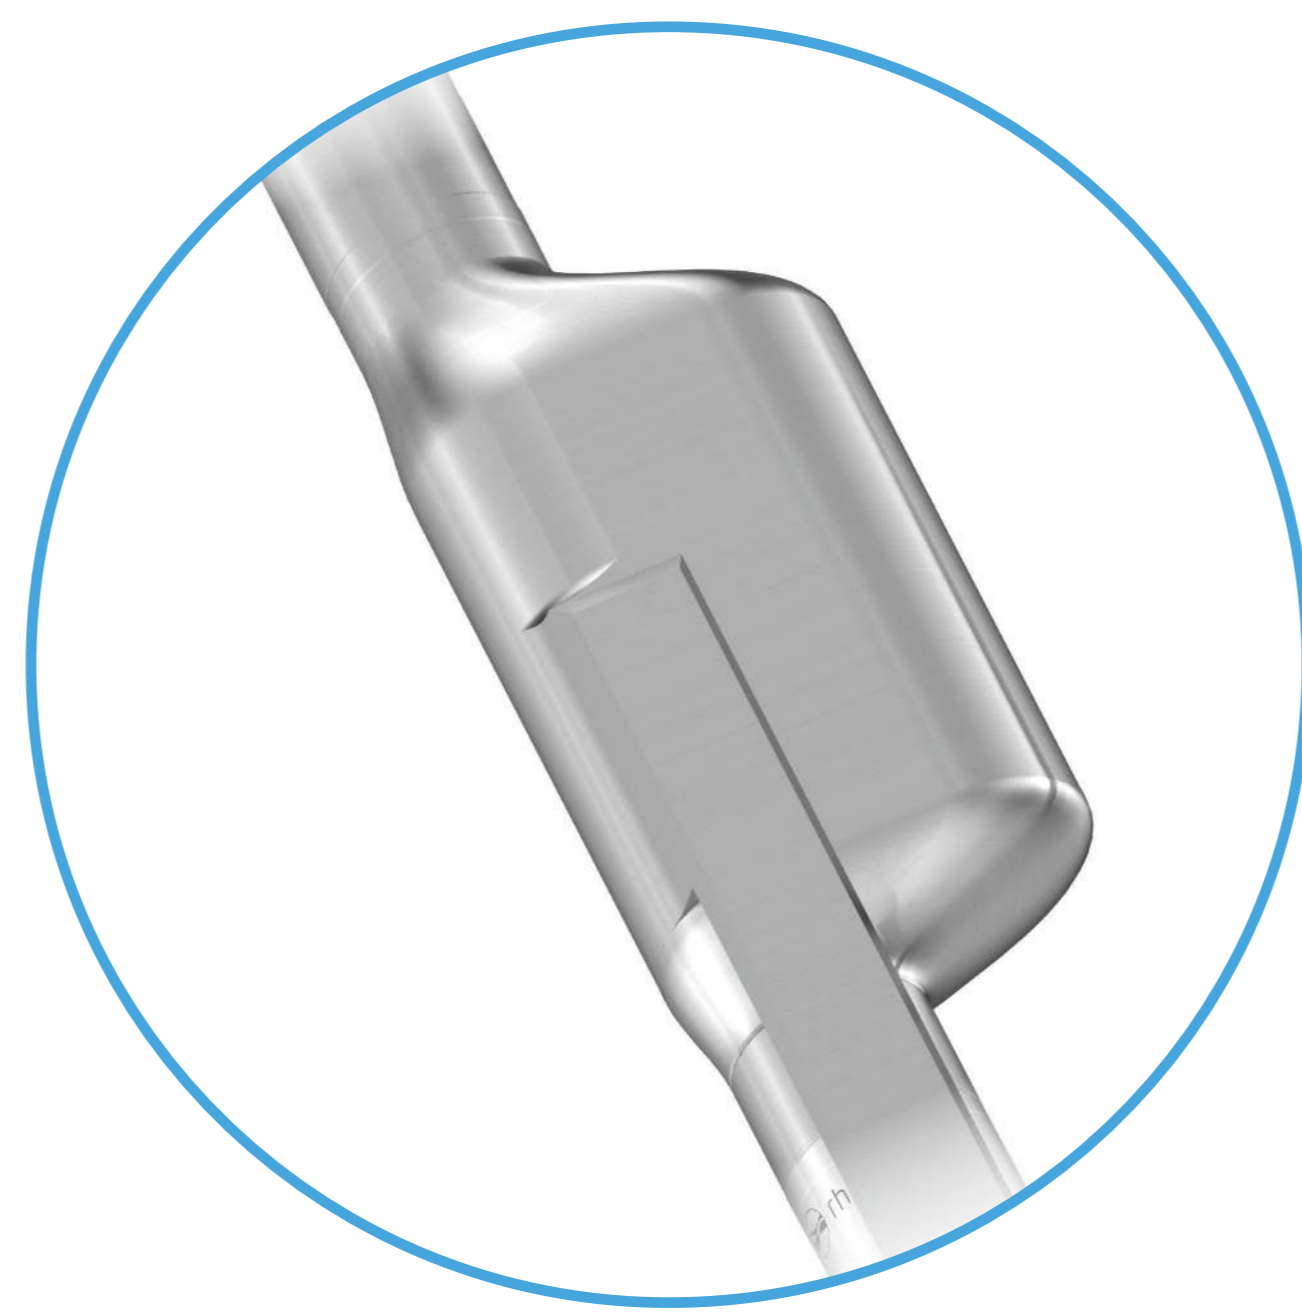

Rheonics APC and Mounting Base

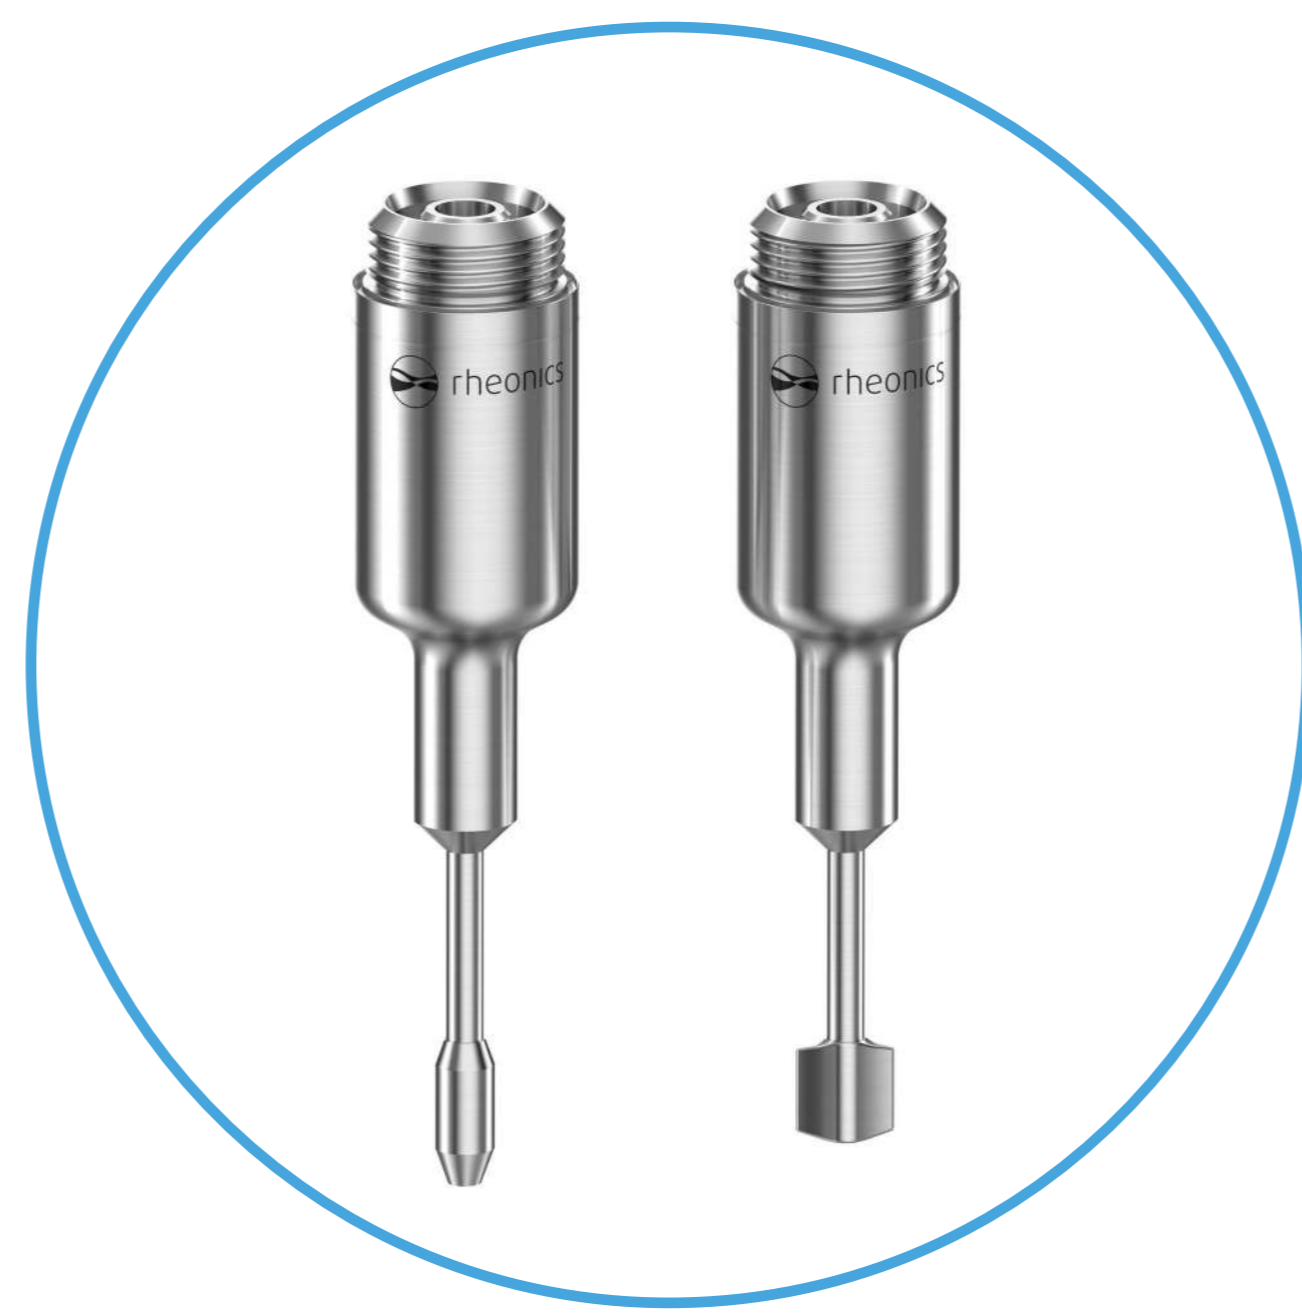

Rheonics Slurrysense

Full Stainless Steel
316L fully sealed metal construction

CleanWave™ Technology prevents slurry deposition on the probe

Viscometer and density meter compatibility

American inspiration
Swiss precision
